## **SUPPLEMENTAL ACTION**

### ***Information Disclosure Statement***

1. Acknowledgment is made of applicant's Supplemental Information Disclosure Statement (PTO-1449) which was received by the Office on April 29, 2004.

### ***Allowable Subject Matter***

2. Having reviewed applicant's newly submitted prior art patents, the Examiner still deems claims 9-17 to be allowed over the prior art of record.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

Of the seven newly submitted prior art references in applicant's Supplemental Information Disclosure Statement (PTO-1449), which was received on April 29, 2004, only the Sherlag '642 patent describes a stimulation device capable of generating "non-excitatory" stimulus signals. Unlike applicant's claimed apparatus, that of Sherlag is used to relieve symptoms of heart block – a function opposite to that intended by the applicant (i.e. causing a reversible heart block as a precursor to surgery). As a result of this difference, the Examiner still deems claims 9-17 to be allowed over the prior art of record.

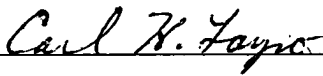

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
